

## TRAINING ANNOUNCEMENT

### *The Promoting Community Cyber Security course (AWR-135)*

#### Overview

This is a six (6) hour discussion-based training that provides an overview of cyber security topics, cyber threats and types of attack. Using case studies, participants will analyze how cyber resources can be improved in the areas of awareness, information sharing, processes and planning. Participants will examine protections within the context of an organization and the broader community.

#### Who Should Attend

State, Local, Tribal Government entities and Critical Infrastructure/Key Resource personnel who are Non-technical managers and personnel involved in policy implementation. Personnel involved in continuity planning, Incident responders and IT managers who oversee computer and network operations

#### No Prerequisites required
